ABOUT ME

Hi friends! I'm Kebi. My journey as a DJ and music producer isn't just about beats and melodies—it's a story of resilience, transformation, and discovering the beauty of grace and purpose along the way.

What started as DJ'ing school dances and birthday parties eventually turned into global stages, luxury events, and unique opportunities to share my sound. I've been blessed to perform in Italy, India, Mexico, Morocco, Puerto Rico, Costa Rica, Cuba, and beyond, sharing stages with artists like The Killers, Maroon 5, Ben Böhmer, Felix Cartal, Griz, FatoumataDiawara, PaaxTulum, Desert Dwellers, and The Chainsmokers. Along the way, my work has been featured on respected labels like Tropical Disco, Cosmic Awakenings, and Sunday Café, and I've collaborated with brands such as Red Bull, W Hotels, Bumble, and Christian Louboutin.

Although there were many opportunities and blessings along the journey, I often found myself searching for something deeper. The success I achieved on the outside couldn't fill the void I felt within. The highs of achievement were often overshadowed by internal struggles, and the path was far from smooth. Like many in the industry, I faced challenges with substance abuse, addiction, and burnout.

In recent years, I've embraced a simpler and more intentional way of living. A pivotal moment in my life was getting sober from alcohol and drugs—a step that not only transformed the way I lived but also redefined who I was at my core. This clarity gave me the ability to rebuild my life with a focus on sustainability, faith, and genuine connection.

I also stepped away from social media, choosing to trust that the right opportunities will come as I focus on creating meaningful experiences through music. These decisions have allowed me to prioritize what truly matters: my faith, creativity, and the relationships that bring joy and purpose to my life. Today, my music draws inspiration from cultures around the world, blending diverse sounds with a sense of joyful freedom. It's no longer about fitting in or chasing validation—it's about fostering meaningful connections and celebrating the beauty and color of life in its fullest expression.

DJ AND MUSIC PRODUCER
