ABOUT KEBI

Kebi is an international DJ, producer, and curator whose work spans luxury weddings, destination resorts, cultural gatherings, and brand experiences across multiple continents.

With over **15 years** of experience, he has built a reputation for crafting musical journeys that feel as considered as the events themselves.

Drawing inspiration from **travel, nature, and human connection**, Kebi approaches every occasion with a singular focus: finding the right feeling for the moment. His ability to move seamlessly between intimate background ambiance and globally-inspired dance floors has made him a trusted partner for leading planners and discerning brands worldwide.

More than a performer, Kebi is a **storyteller** — one whose medium is music, and whose measure of success is the lasting impression left on every guest in the room.
